

Summary report

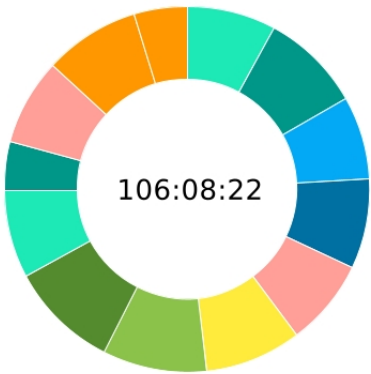

16/03/2026 - 01/04/2026

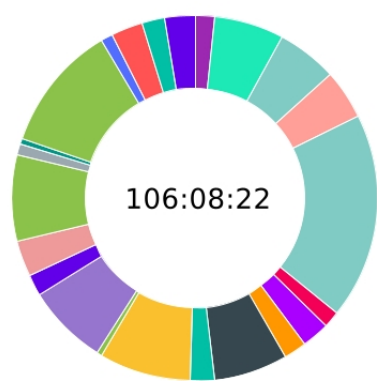

Total: 106:08:22

Date

16/03/2026	08:22:00	7,88%
17/03/2026	09:23:10	8,84%
18/03/2026	07:52:00	7,41%
19/03/2026	08:25:00	7,93%
20/03/2026	08:08:00	7,66%
23/03/2026	09:07:00	8,59%
24/03/2026	09:41:00	9,12%
25/03/2026	10:17:00	9,69%
26/03/2026	08:10:00	7,69%
27/03/2026	04:35:00	4,32%
30/03/2026	08:11:00	7,71%
31/03/2026	08:59:41	8,47%
01/04/2026	04:57:31	4,67%

● Fixes issues with "Upload" type products	01:52:00	1,76%
● Updating order products after change file in upload	06:30:00	6,12%
● Fixes order export xml issues	05:38:00	5,31%
● Printlane API request rate limit issue	04:40:10	4,40%
● Tracking file processing progress in Pitstop	19:24:00	18,28%
● Fixes mail issues	01:33:00	1,46%
● Fixes ssh issues for AWS servers	02:33:00	2,40%

● Optimizing the use of Amazon Elastic File System (EFS) for AWS	02:11:00	2,06%
● Setting up environment on production for tracking file processing progress in Pitstop	06:56:00	6,53%
● Fixes export issues	02:16:00	2,14%
● Optimization of API performance for retrieving orders and products.	08:33:00	8,06%
● Update staging enviroment	00:29:00	0,46%
● setting up environment	07:36:00	7,16%
● update backend for using websockets	02:02:00	1,92%
● update frontend for using websockets	03:19:00	3,12%
● Setting up new environment	08:08:00	7,66%
● description and verification of entry points for backend.	01:03:00	0,99%
● description and verification of entry points for frontend.	00:28:00	0,44%
● aanpassinge uploader	11:54:29	11,22%
● Deployment for production	01:08:31	1,08%
● Fixes mail sending issues	02:56:41	2,77%
● Order preview loading is not working in the user profile.	02:08:31	2,02%
● Product actions in orders are not working.	02:49:00	2,65%

Date / Description	Duration
16/03/2026	08:22:00
Fixes issues with "Upload" type products	01:52:00
Updating order products after change file in upload	06:30:00
17/03/2026	09:23:10
Fixes order export xml issues	04:43:00
Printlane API request rate limit issue	04:40:10
18/03/2026	07:52:00
Fixes order export xml issues	00:55:00
Tracking file processing progress in Pitstop	06:57:00

19/03/2026	08:25:00
Tracking file processing progress in Pitstop	08:25:00
20/03/2026	08:08:00
Fixes mail issues	01:33:00
Fixes ssh issues for AWS servers	02:33:00
Tracking file processing progress in Pitstop	04:02:00
23/03/2026	09:07:00
Optimizing the use of Amazon Elastic File System (EFS) for AWS	02:11:00
Setting up environment on production for tracking file processing progress in Pitstop	06:56:00
24/03/2026	09:41:00
Fixes export issues	00:20:00
Optimization of API performance for retrieving orders and products.	06:12:00
Update staging enviroment	00:29:00
setting up environment	02:40:00
25/03/2026	10:17:00
setting up environment	04:56:00
update backend for using websockets	02:02:00
update frontend for using websockets	03:19:00
26/03/2026	08:10:00
Fixes export issues	01:56:00
Setting up new environment	04:43:00
description and verification of entry points for backend.	01:03:00
description and verification of entry points for frontend.	00:28:00
27/03/2026	04:35:00
Setting up new environment	03:25:00
aanpassinge uploader	01:10:00

30/03/2026	08:11:00
aanpassing uploader	08:11:00
31/03/2026	08:59:41
Deployment for production	01:08:31
Fixes mail sending issues	02:56:41
Optimization of API performance for retrieving orders and products.	02:21:00
aanpassing uploader	02:33:29
01/04/2026	04:57:31
Order preview loading is not working in the user profile.	02:08:31
Product actions in orders are not working.	02:49:00
